TOURING COLLECTION FW 2022/2023

CALLING ALL OUT

From little adventures to great epics, all you need to do is break free and make time. The message is clear: wide open spaces await you.

4

It could be a morning before work or an evening at sunset, guided simply by the light of a head torch. A night in a mountain hut or a van. A day trip on trails with just trainers or skis on your feet.

An invitation to discover new horizons.

The mountain is a source of inspiration. It is perceived through its verticality and the transversality of the seasons it passes through. There is more than one way to approach and discover the mountain.

The choice is yours. It's up to you to choose the pace and style.

TOURING IN DOWNHILL MODE, SEEKING OUT YOUR OWN LINE.

Leaving fresh tracks on cottony powder early in the morning, weaving your way along a forest trail with your children, climbing a slope under a starry sky with the promise of nocturnal turns by the light of your head torch, taking off your skins at the pass and admiring the vast panorama...
